Subject: Nuclear waste at Yucca Mountain
:

-
- 1 As citizens of Las Vegas, NV, my wife and myself are opposed to using Yucca Mountain to hold the nations high-level waste.
 - 2 Further, we are opposed to the transport route of nuclear waste through, or around, the city of Las Vegas, NV. One accident could devastate the entire area for years. Yes, I know you advertise that shipping containers are fool proof. I don't buy your arguments. If they are so fool proof why not locate them at the source and eliminate all the costs of shipping for hundreds of miles across the U.S. Let the states that benefited by allowing the development of a nuclear industry keep the waste they created at the site in the storage containers you say are fool proof.

Respectfully submitted,

Chauncey Bingham
